

## Xerox Network Laser Printers MICR-Enhanced by ACOM

### Phaser 4510

ACOM's versatile MICR-Enhanced Laser Printers enable you to produce your own MICR Laser Checks and Forms, without using a line printer or expensive preprinted check stock. Our MICR printers help companies cut labor costs, cut check stock expenses and greatly reduce their exposure to check fraud.

Here are a few features of ACOM's MICR-Enhanced Phaser 4510N Laser Printers:

- Prints 45 pages per minute
- Each network printer is Secure Certified to meet or exceed ANSI/ABA standards; secure keylock model with 3 positions/modes:
  - "MICR On" -- to print secure MICR documents
  - "MICR Off" -- to print non-MICR documents
  - "Printer Off" -- to disable all printing capabilities
- Each printer can also be purchased with additional security options:
  - Removable security card for safe storage of signatures and logos when not in use
  - Secure paper trays with Key locks

**ACOM** has successfully MICR-enhanced the Xerox Phaser 4510 Network Laser Printers to deliver MICR laser checks and forms processing, offering your company a complete quality check-processing and forms-processing solution at a cost-effective price.

**ACOM's** Secure Certified MICR Printers are equipped with MICR toner sensors and is available in Tri-Mode which allows users the flexibility to print MICR documents, non-MICR documents, and a "Printer Off" mode which disables ALL printing capabilities for total security.

Additional security options for the MICR-enhanced Network Laser Printers include a removable Security card so that signatures and logos can be kept safe when not being used or Secure paper trays with key locks. By utilizing these security features along with **ACOM's** blank security-check stock, the potential for check fraud is significantly reduced.

**ACOM** reengineers Xerox printers to withstand the rigors of MICR printing in its own laboratories with the support of Xerox engineering personnel, concurrently developing MICR toner to the exact requirements of the specific printer model. Its toners meet or exceed the quality standards for adherence and reliability set by the American Bankers Association (ABA) and the American National Standards Institute (ANSI).
