

Plastic Cards

Versatile, non-laser plastic cards for a variety of applications

Relyco's non-laser plastic cards address identification, marketing and promotional requirements across all industries, including retail, insurance and hospitality.

Common applications include:

- Membership cards
- ID cards
- Business cards
- Frequent buyer cards
- Loyalty cards
- Security cards
- Hotel key cards
- Gift cards
- Key tags
- Luggage tags

Features and Benefits

- Customizable design
 - Choose images tailored to marketing efforts or to enhance brand
 - High-quality print allows for a better company image
 - Incorporate magnetic stripes, signature panels or bar codes to collect valuable data
- Available in a range of thicknesses —from 7 mil to 30-mil—
 - Use the thickness that best suits application and budget requirements: 10 mil for business cards, 20 mil for phone cards, 30 mil for key cards, etc.

Choose from a broad range of options including full process color to create a unique marketing piece to enhance your organization's brand. Incorporate magnetic stripes, signature panels, bar codes and other personalization options to collect valuable data.

Available in sizes from 7 mil to 30 mil, you can choose the thickness that best suits your application. For example, 10 mil is ideal for a business card, while 20 mil is better for a phone card and 30 mil is best for a key card.

Please note: unlike other cards Relyco offers, 30-mil cards are not laser compatible. There are no laser-compatible cards on the market today that can incorporate magnetic stripes.
