PRINTING & PAYMENT SOLUTIONS

REIMAGE™ Runs on Every Machine

One Carbonless form for both Digital and Offset? **You Bet!**

REIMAGE™ Carbonless Sheets are GUARANTEED to run on all of your forms equipment. Whether you have an offset press, a high-speed copier, a digital duplicator or an inkjet copier, REIMAGE is the right choice every time.

REIMAGE sheets and forms provide both the unparalleled runnability you've come to expect from Relyco's offset paper plus our new contamination-free digital performance within REIMAGE. Simply put, REIMAGE performance is reliable and consistent thanks to our high fiber content. Each sheet contains high fiber content and less chemical fillers, allowing us to provide this multi-purpose carbonless sheet **without** having to raise basis weight.

Relyco's REIMAGE is built to run on every machine, and it keeps your inventory lean!

Finally, Affordable Laser Carbonless Forms

It's time to get away from conventional multi-part continuous forms and unit sets. Save your business up to 50% using REIMAGE laser carbonless forms.

REIMAGE is "Clean" & "Green"

Relyco's new REIMAGE is the cleanest carbonless form sheet in the industry for both offset and digital applications, as well as being the most environmentally responsible. REIMAGE is manufactured using a more energy-efficient process, with decreased VOCs versus traditional CF grades and reduced solvent usage in wash-ups. REIMAGE forms are "Cleaner" and "Greener," once again reaffirming that Relyco advantage of quality and service when it comes to carbonless.

Relyco is proud to announce the addition of the prestigious SFI Chain-of-Custody forest certification for REIMAGE forms, which ensures that each sheet of REIMAGE carbonless is guaranteed to be responsibly produced — giving you and your customers peace of mind that Relyco solutions are green to go.

Features & Benefits

- **RUNNABILITY** - Relyco has always provided an advantage in runnability on press, thanks to our high fiber content carbonless sheet. REIMAGE continues that tradition of excellence. Even better, our REIMAGE product offers excellent performance in all forms equipment without having to raise our basis weight — you get maximum runnability all in a 20# sheet. This provides ergonomic and shipping benefits to our customers as well.
- **STREAMLINED** - Ordering from Relyco is now simpler than ever, with one product to buy and inventory. It is simpler for press operators also — no need to change papers when a job changes from offset to digital.
- **BRIGHTER** - REIMAGE Carbonless is now whiter and brighter than before — 92 bright, and a more blue-white shade makes for an even better looking sheet than ever.
- **GUARANTEED** - Relyco offers the confidence of our 100% Guarantee on REIMAGE. Feel free to use our carbonless paper on your equipment and know that Relyco stands behind it absolutely.

“I haven’t heard one complaint about the carbonless form printers since we bought the new REIMAGE paper from you. Our shipping department had headache after headache, year after year, until we bought the laser carbonless paper from Relyco.”

FAQ's

Q: Will a set of my laser carbonless paper run through my printer all at the same time?

A: No, our REIMAGE carbonless paper runs through your laser printer one sheet at a time. If needed, the carbonless paper can then be bound together using our special glue.

Q: Which laser carbonless forms should I use?

A: The choice between 2 part carbonless paper, 3 part carbonless paper or 4 part carbonless paper boils down to how many copies of your form you need. Many customers who have been using as many as 4 or 5 pages for years find that they can consolidate their use to a 2-part carbonless paper or a 3 part carbonless paper and save a significant amount of money. Call our Relyco Consultants for suggestions on what you may depending on your individual usage.

Q: Is REIMAGE a type of NCR paper?

A: Yes, NCR paper is the same thing as laser carbonless paper. NCR carbonless paper is simply another name, an acronym stemming from “No Carbon Required”. The key is that our REIMAGE NCR carbonless paper is specifically designed for your laser printer. It will not damage it as many other non-laser carbonless paper products will.

About Relyco
