

Xerox Network Laser Printers MICR-Enhanced by ACOM

Phaser 4500

ACOM's versatile MICR-Enhanced Laser Printers enable you to produce your own MICR Laser Checks and Forms, without using a line printer or expensive preprinted check stock. Our MICR printers help companies cut labor costs, cut check stock expenses and greatly reduce their exposure to check fraud.

Here are a few features of ACOM's MICR-Enhanced Laser Printers:

- Prints 36 pages per minute
- Each printer is available in two models:
 - ▶ **MODEL ONE** -- MICR Only Model
 - ▶ **MODEL TWO** -- Keylock Model with 3 positions/modes
 - "MICR On" -- to print secure MICR documents
 - "MICR Off" -- to print non-MICR documents
 - "Printer Off" -- to disable all printing capabilities
- Each printer can also be purchased with additional security options:
 - ▶ Security Card -- removable PCMCIA Secure-A-Font™ card for secure storage of signatures and MICR font.
 - ▶ "Secure Print" with internal hard disk and password panel -- send/spool your secure MICR documents to the internal hard disk of your MICR printer; print jobs are only released via a front-panel-entered password.
