

# Laser ID Cards

## Laser-compatible, easy-to-use identification & membership products

Designed to be laser compatible and easy to use, Relyco's laser ID cards are available in a wide range of materials to meet the requirements of your unique application. Work with a member of Relyco's professional staff to identify the right solution for your organization by evaluating key criteria, including type of printer, simplex or duplex printing, number of cards needed, number of cards per sheet, durability and cost.

**LaserWell** and **WindowWell** laser-compatible in-laid plastic ID and membership cards are made of 7-mil plastic affixed to a paper carrier sheet with a "debossed well" in which the card sits. Extremely durable, LaserWell and WindowWell laser ID and membership cards are heat, tear and water resistant, as well as toner and ball-point pen receptive.

With LaserWell cards, up to six 2 1/8" x 3 3/8" cards can be affixed to a standard 8 1/2" x 11" sheet; up to two cards can be affixed per sheet with WindowWell. Carrier sheets are 11" or 14"; 70# white paper carrier sheets are standard, although other options--including a continuous sheet format—are also available.

LaserWell cards are designed for simplex laser printing only; WindowWell cards are duplex laser printing capable due to the "window" cut into the back of the carrier.

Because of their "well" design, LaserWell Original Plus and WindowWell Plus provide the smooth surface required for high-speed laser/digital printing, reducing the number of paper jams.

Unlike Relyco's In-Laid Plastic Cards, which are affixed to a carrier sheet, **Die-cut Laser Membership Cards** are created by perforating or die-cutting the carrier sheet. A user simply punches out the card. Die Cut Laser Membership Cards can be either paper or plastic, depending on the specific application and budget of your project.

- Designed for simplex laser printing only, **Perf Card** laser membership cards are 2 1/8" x 3 3/8", printed one or two cards per sheet.

**Perf Cards** are available in 60# cover with or without back laminate, 8 pt high gloss with or without back laminate, or 90# index without laminate. **Perf Card** carrier sheets are 11" and are available in 60# cover with or without back laminate or 8 pt high gloss with or without back laminate.

## Features and Benefits

- **Versatile LaserWell and WindowWell plastic cards**
  - Made from 7-mil plastic
  - Extremely durable; heat, tear and water resistant
  - Toner and ball-point pen receptive
  - LaserWell cards are designed for simplex laser printing only
  - WindowWell cards are duplex laser-printing capable
- **Die-cut Laser Membership Cards available in a range of options**
  - Available in paper or plastic to meet application and budget requirements
  - Choose from Perf Card, RealCard, BestCard or REVLAR waterproof card
- **Integrated Peel or Dry Release Laser Membership Cards**
  - Lamination makes removal easy, ensures durability

- Seven-mil **RealCard** laser membership cards print up to eight 2 1/8" x 3 3/8" cards per sheet. Carrier sheets are 11", 30# white. **RealCard** is duplex laser printing compatible.
- Available in 7.5 or 10 mil, **BestCard** Laser Membership Cards print up to two 2 3/8" x 3 5/8" cards per sheet. Cards are set in a poly window. Carrier sheets are 11", 6 or 8 pt, laser opaque continuous format. **BestCard** is duplex laser printing compatible.
- **REVLAR™** waterproof laser ID cards print six perforated cards per sheet. In addition to being waterproof, **REVLAR** laser ID cards are tear-resistant, impervious to grease and chemicals, and designed to withstand high and low temperature fluctuations. **REVLAR** card and carrier sheet weight is 7.7 mil. **REVLAR** waterproof cards are duplex laser printing compatible.

With **Integrated Peel or Dry Release Laser Membership Cards**, the carrier sheet includes a plastic "patch," which is positioned at the back of the card, enabling the card to peel away from the carrier. Since the back of the card is laminated, removal is easy, and lamination gives the card added durability.

Designed for simplex laser printing, **Integrated Peel or Dry Release Laser Membership Cards** can print up to two 2 1/8" x 3 3/8" cards per sheet. Both the card and the 11" carrier sheet are available in 60# cover with back laminate, 8 pt high-gloss with back laminate, or 70# Cougar front and back laminate.
