

Printable Temporary License Plates

As more counties and states are moving to tighten temporary plate regulations and incorporate better security features, the need for a durable material increases.

REVLAR is your best choice for temporary plates

WEATHERPROOF

TEAR-PROOF

WATERPROOF

FADE RESISTANT

HIGH / LOW TEMPS

With plates made from REVLAR synthetic paper, you have all these options:

- Laser printable or inkjet printable versions

LASER COMPATIBLE

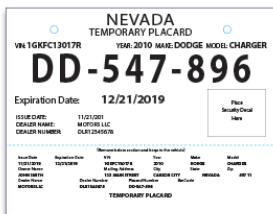

INKJET COMPATIBLE

- Ability to incorporate overt & covert security features, such as: watermarks, holograms, QR codes & barcodes
- Compatibility with open road tolling and electronic readers
- Recycle as a #1 plastic
- Perforations: so you can include information on the perimeter that you want the buyer to keep after tearing out the plate
- Choices in terms of materials, thicknesses and coatings
- Options for cars, motorcycles, trailers, watercraft & recreational vehicles

Our experience with plates

We currently supply temporary plates to dealers in Nevada, Texas and now California. We have several templates available:
