

BASICHEK® High Security Laser Checks

Features

- 3-2/3" checks with check on top or bottom
- Optional stub perforation on six layouts to assist in hand-folding
- Blue, green, and red color formats for easy distinction between accounts or applications

Advanced security features:

- **Enhanced Toner Adhesion** to enhance toner on paper preventing alteration of information
- **Covert Fluorescent Fibers** can be detected with UV light to prove authenticity
- **Solvent-Reactive Color Spotting** is present when exposed to chemicals after check alteration

Premium Laser Checks Featuring 15 Security Features and Enhanced Toner Adhesion

For customers interested in more security, our BASICHEK® line offers 15 security features to help deter fraud. The most significant addition to the BASICHEK line is the presence of Enhanced Toner Adhesion, commonly referred to as "Toner Grip." This special coating not only makes it difficult to lift or scrape the toner from the page, but in some cases, it enhances the product's printing performance through the laser printing equipment

THE FACE OF THIS CHECK IS PRINTED GREEN - THE BACK CONTAINS A SIMULATED WATERMARK

Microperforation allows for clean, easy tear

Copy-Void when check is photocopied the word VOID appears

Voidless Postal Window where copy-voice is removed for increased postal compatibility

Microprinting is too small to be photocopied

Clear Band allows for accurate MICR reading

Warning Band alerts tellers or check recipients to the presence of security features

Image Friendly convenience
amount area to meet Check 21 Compliance regulations

Padlock Security check protection system to alert tellers of security features. The back of the check details features for the tellers

RELYCO
WILDLY RELIABLE

By printing the back of this stub portion with **NON-NEGOTIABLE**, it helps prevent fraudulent use of the blank portion of the form.

Endorsement Warning above endorsement alerts the teller and/or the recipient to the presence of security features which can be verified before processing the check.

Microprinting of the endorsement line to verify the authenticity of the document.

Copy/Void safety feature in **Endorsement Backer** helps prevent copying of signatures.

Simulated Watermark safety feature, visible when viewed at 45° angle, is coin-reactive and can not be easily photocopied and scanned.

Anti-Splice Backer diagonal words of varying sizes make it difficult to alter information by the cut-and-paste method.
