

DETERACHEK® High Security Laser Checks

Features

- 17 fraud-detering security features including a Fourdrinier Watermark and Thermochromic Ink for maximum security
- 3-2/3" checks with check on top or bottom
- Four layouts with optional stub perforation on two layouts to assist in hand-folding

Our Most Secure Premium Laser Check Featuring 17 Built-In Security Features

If you want the most comprehensive array of security features available on the market, the DETERACHEK® line of premium laser check stock is the one for you. The most secure check we offer, the DETERACHEK line is loaded with 17 fraud-detering security features, including a Fourdrinier or "true" watermark that has been manufactured into the paper, as well as Thermochromic Ink. This unique feature responds to heat by temporarily disappearing when rubbed or exposed to a heat source, making the check impossible to accurately duplicate using a photocopier or scanner, while providing an effective means of authenticating the document.

DETERACHEK® High Security Laser Checks

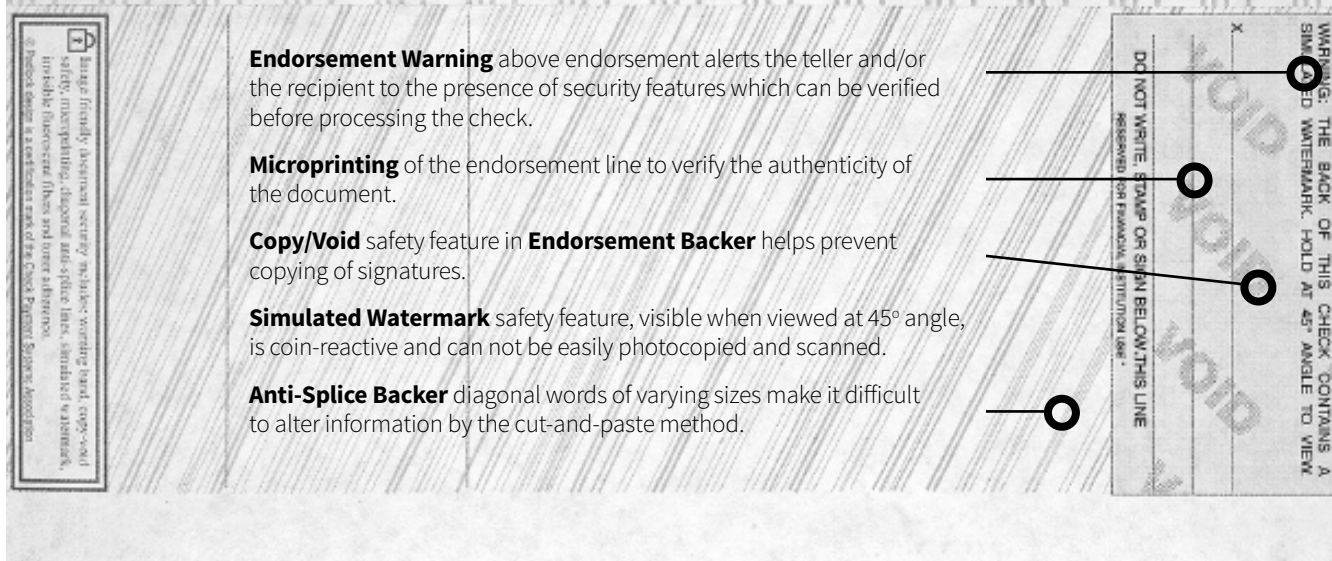

Part	Size	Check Size/Position
 DC301	8-1/2"x11" 1 Perforation 3-2/3"	3-2/3" Top Check
 DC301P	8-1/2"x11" 2 Perforations at every 3-2/3"	3-2/3" Top Check
 DC302	8-1/2"x11" 1 Perforation 3-2/3"	3-2/3" Bottom Check
 DC302P	8-1/2"x11" 2 Perforations at every 3-2/3"	3-2/3" Bottom Check

- **Microperforation** allows for clean, easy tear
- **Fourdrinier True Watermark** creates images within the paper which are visible when held up to an ordinary light source
- **Copy-Void** when check is photocopied the word VOID appears
- **Voidless Postal Window** where copy-voice is removed for increased postal compatibility
- **Microprinting** is too small to be photocopied
- **Clear Band** allows for accurate MICR reading
- **Gradient Screen** two color blend makes it difficult for copiers to match
- **Image Friendly** convenience amount area to meet Check 21 Compliance regulations
- **Thermochromic Heat-Reactive Ink** lines in this box disappear when heat is applied
- **Padlock Security** check protection system to alert tellers of security features. The back of the check details features for the tellers

RELYCO
WILDLY RELIABLE

By printing the back of this stub portion with **NON-NEGOTIABLE**, it helps prevent fraudulent use of the blank portion of the form.

Endorsement Warning above endorsement alerts the teller and/or the recipient to the presence of security features which can be verified before processing the check.

Microprinting of the endorsement line to verify the authenticity of the document.

Copy/Void safety feature in **Endorsement Backer** helps prevent copying of signatures.

Simulated Watermark safety feature, visible when viewed at 45° angle, is coin-reactive and can not be easily photocopied and scanned.

Anti-Splice Backer diagonal words of varying sizes make it difficult to alter information by the cut-and-paste method.
